(reconstructed from indeed.com job post)

We are looking for skilled structured technical writers from around the world to join our team at Good Enterprise Limited. If you excel at creating clear and organized technical documentation and have experience with any of the following structured writing software, we want to hear from you!

Responsibilities:

- Create user-friendly technical documentation using structured authoring and predefined templates.
- Collaborate with cross-functional teams and subject matter experts to ensure accurate content.
- Utilize XML/DITA and one or more of the following structured writing software

Structured Writing Software:

- Adobe FrameMaker
- Oxygen XML Editor
- MadCap Flare
- Author-it
- Paligo
- XMetal
- DocBook

Requirements:

- Proven experience in structured technical writing.
- Proficiency in English (additional languages are a plus).
- Detail-oriented with excellent communication skills.
- Bachelor's degree in Technical Writing, Engineering, or related field preferred.

Join our global team, work remotely, and contribute to international projects. If you have experience with any of the listed structured writing software and are passionate about technical writing and language services, send your resume, portfolio, and a brief cover letter to sharon@gel-global.com

Job Type: Part-time

Salary: \$100.00 per hour
