Chriswell McSharps

Hi, I am Chriswell McSharps — a recent graduate with an Associate of Applied Science in Computer Information Technology, focused on Local Area Network Systems and Network Administration. I am enthusiastic about building, securing, and maintaining networks that *work*, and I thrive on solving technical puzzles that leave others scratching their heads. I am now looking forward to bringing my firsthand training and curiosity-driven mindset into the professional IT world, where I can keep learning, keep fixing, and even finally catch that one rogue packet.

2025 - 2027

**AAS: Computer Information
Network Admin Spec**
Austin Community College

Bash
Routing
Windows Server
Wireshark
Hyper-V
VMWare

2021 - 2027

Certifications & Projects

- Cisco Networking Academy: CCNA Prep
- Setup of multi-subnet lab environment w/ routing between VLANs
- Deployed simulated business network w/ AD, DNS, DHCP
- Security system rules written with the precision of an angry sysadmin.

Core Strengths & Mindset

- Willing to work weird hours.
 - Willing to relocate.
 - Enthusiastic about networks and network debugging
 - Seeking entry-level Network Admin, IT Support, or Sysadmin position
-
